No. 2 71–156 published April 1990
No. 3 157–220 published June 1990

Alexandre E → Kedinger M et al. 87
Andrés V, Cussó R, Carreras J: Effect of denervation on the distribution and developmental transition of phosphoglycerate mutase and creatine phosphokinase isozymes in rat muscles of different fiber-type composition 98
Andrew A, Rawdon BB: Intestinal mesenchyme provokes differentiation of intestinal endocrine cells in gizzard endoderm 165
Andrews PW, Nudelman E, Hakomori S-I, Fenderson BA: Different patterns of glycolipid antigens are expressed following differentiation of TERA-2-human embryonal carcinoma cells induced by retinoic acid, hexamethylene bisacetamide (HMBA) or bromodeoxyuridine (BUdR) 131
Arnold C → Kedinger M et al. 87
Auersperg N, MacLaren IA, Bissell MJ: V-K-ras transformation induces reversion to an earlier developmental form in adult rat adrenal cells 29
Baker JR → Mark MP et al. 37
Bissell MJ → Auersperg N et al. 29
Black PH → Taylor DD et al. 123
Bouziges F → Kedinger M et al. 87
Buckingham ME → Cox RD et al. 183
Carreras J → Andrés V et al. 98
Chou I-N → Taylor DD et al. 123
Chung AE → Zagris N 81
Cox RD, Garner I, Buckingham ME: Transcriptional regulation of actin and myosin genes during differentiation of a mouse muscle cell line 183
Cussó R → Andrés V et al. 98
Dawid IB → LaFlamme SE 1
Deurs B van → Mørk C et al. 146
Doenecke D → Hochhuth C 212
Dziak E → Opas M 20
Fenderson BA → Andrews PW et al. 131
Filoni S, Paglialunga L: Effect of denervation on hindlimb regeneration in *Xenopus leavis* larvae 10
Fuchs O → Iujvidin S et al. 192
Gabbiani G → Schmitt-Gräff A et al. 115
Garner I → Cox RD et al. 183
Garrone R → Mallein-Gerin F et al. 204
Gramzinski RA, Parchment RE, Pierce GB: Evidence linking programmed cell death in the blastocyst to polyamine oxidation 59
Gramzinski RA → Parchment RA et al. 51
Haffen K → Kedinger M et al. 87
Hakomori S-I → Andrews PW et al. 131
Heintzelman MB, Mooseker MS: Structural and compositional analysis of early stages in microvillus assembly in the enterocyte of the chick embryo 175
Hochhuth C, Doenecke D: The expression of the histone H1° gene in the human hepatoma cell line HepG2 is independent of the state of cell proliferation 212
Hofmann M → Schaller HC et al. 157
Iujvidin S, Fuchs O, Nudel U, Yaffe D: SV40 immortalizes myogenic cells: DNA synthesis and mitosis in differentiating myotubes 192
Javois LC → Schaller HC et al. 157
Jiang C → Taylor DD et al. 123
Karsten U → Stosiek P et al. 66
Kasper M → Stosiek P et al. 66
Kedinger M, Simon-Assmann P, Bouziges F, Arnold C, Alexandre E, Haffen K: Smooth muscle actin expression during rat gut development and induction in fetal skin fibroblastic cells associated with intestinal embryonic epithelium 87
Keeble S, Watt FM: Characterisation of the peanut lectin-binding glycoproteins of human epidermal keratinocytes 139
LaFlamme SE, Dawid IB: XK endo B is preferentially expressed in several induced embryonic tissues during the development of *Xenopus leavis* 1
MacLaren IA → Auersperg N et al. 29
Mallein-Gerin F, Ruggiero F, Garrone R: Proteoglycan core protein and type II collagen gene expressions are not correlated with cell shape changes during low density chondrocyte cultures 204
Mark MP, Baker JR, Morrison K, Ruch J-V: Chondroitin sulfates in developing mouse tooth germs: An immunohistochemical study with monoclonal antibodies against chondroitin-4 and chondroitin-6 sulfates 37
Mooseker MS → Heintzelman MB 175
Mørk C, Deurs B van, Petersen OW: Regulation of vimentin expression in cultured human mammary epithelial cells 146
Morrison K → Mark MP et al. 37
Nischt R → Winter H et al. 104
Nudel U → Iujvidin S et al. 192
Nudelman E → Andrews PW et al. 131
Opas M, Dziak E: Effects of a tumour promoter, 12-0-tetradecanoyl-phorbol-13-acetate (TPA), on expression of differentiated phenotype in the chick retinal pigmented epithelial cells and on their interactions with the native basement membrane and with artificial substrata 20
Paglialunga L → Filoni S 10
Parchment RA, Gramzinski RA, Pierce GB: Neoplastic embryoid bodies of embryonal carcinoma C44 as a source of blastocele-like fluid 51
Parchment RA → Gramzinski RA et al. 59
Pau H → Schmitt-Gräff A et al. 115
Petersen OW → Mørk C et al. 146
Pierce GB → Gramzinski RA et al. 59
Pierce GB → Parchment RA et al. 51
Piper H-M → Schmitt-Gräff A et al. 115
Quaglia A → Zaccanti F et al. 71
Rawdon BB → Andrew A 165
Rentrop M → Winter H et al. 104
Ruch J-V → Mark MP et al. 37
Ruggiero F → Mallein-Gerin F et al. 204
Schaller HC, Hofmann M, Javois LC: Effect of head activator on proliferation, head-specific determination and differentiation of epithelial cells in hydra 157
Schmitt-Gräff A, Pau H, Spahr R, Piper H-M, Skalli O, Gabbiani G: Appearance of alpha-smooth muscle actin in human eye lens cells of anterior capsular cataract and in cultured bovine lens-forming cells 115
Schweizer J → Winter H et al. 104
Simon-Assmann P → Kedinger M et al. 87
Skalli O → Schmitt-Gräff A et al. 115
Spahr R → Schmitt-Gräff A et al. 115
Stosiek P, Kasper M, Karsten U: Expression of cytokeratins 8 and 18 in human Sertoli cells of immature and atrophic seminiferous tubules 66
Taylor CG → Taylor DD et al. 123
Taylor DD, Taylor CG, Black PH, Jiang C, Chou I-N: Alterations of cellular characteristics of a human ovarian teratocarcinoma cell line after in vitro treatment with retinoids 123
Vallisneri M → Zaccanti F et al. 71
Watt FM → Keeble S 139
Winter H, Rentrop M, Nischt R, Schweizer J: Tissue-specific expression of murine keratin K13 in internal stratified squamous epithelia and its aberrant expression during two-stage mouse skin carcinogenesis is associated with the methylation state of a distinct CpG site in the remote 5′-flanking region of the gene 104
Yaffe D → Iujvidin S et al. 192
Zaccanti F, Vallisneri M, Quaglia A: Early aspects of sex differentiation in the gonads of chick embryos 71
Zagris N, Chung AE: Distribution and functional role of laminin during induction of the embryonic axis in the chick embryo 81
